

Garden and Campus Cleanup - Oct. 26

Brookside Parent Club • 8 days ago • Sunday, Oct 20 at 11:12 AM • **Brookside Elementary**

Hello Brookside Families!

After a long summer off, the kids finally returned to the garden this past week and will continue this week! The lower grades are learning about edible plant parts while the uppers are learning the different ways that seeds travel and are collecting seeds from our garden to take home. If you're interested in joining our Garden Ambassador team that leads these monthly classes, please email christinawhippen@gmail.com, we'd love to have you!

After this week's classes, we'll be ready to prepare the garden for fall planting! Please visit our [sign up](#) and volunteer to lend a hand **this Saturday, October 26**. In addition to putting you all to work, Emily Hatfield will be presenting our plan for the garden from 8:00- 8:30 am- the space is getting a total redesign and we'd love to show you what's in store and hear your feedback.

The Brookside Garden Team!
